

BCG Quick Work Fact Sheet

Business Card Redesign

The BCG Business Card Redesign Service offers a review and redesign of your business card that makes your card stand out when you hand it to a prospective customer. We also redesigned the price so this service is cost-effective for you: it costs just \$99.

What We Do

With the BCG Business Card Redesign Service, we review a single, one-sided business card and ask you if you have any changes to the card information. We also ask you if you have any specific formatting requirements for the card, such as the inclusion of a new company logo. Then we redesign your card so it's attractive and easy to read.

How It Works

You send us:

- The business card either as the card itself, a scanned copy, or a PDF copy
- The location where you want us to send the edited version, such as an e-mail address.
- \$99 payable by check or PayPal.

Then we'll send you a confirmation and estimated completion date for sending the revised business card—generally within two business days.

If you have any minor changes to the card, such as to the person's contact information, we'll incorporate those changes into the final draft.

What You Get

You get a PDF document of the business card, and the document will be set up so your printer can print your card easily.
